PRESSEMITTEILUNG

Become a „Certified PROFIsafe Designer“

Karlsruhe, 20. Januar 2016: For PROFIBUS & PROFINET International (PI) the issue of security and safety technology has highest priority in 2016 as well. In cooperation with the TÜV Süd PI organizes a three-day PROFIsafe training for designers, developers and assessors from 1 to 3 March 2016. The training will take place in Germany and will be taught in English, so that interested people from abroad can participate as well. At a high technical level the course will deal with all major standards and guidelines in connection with PROFIsafe and functional safety.

Each training day ends with a written exam. Experts having passed all tests will receive a TÜV certificate 'Certified PROFIsafe Designer'. The cost of this training amounts to € 500.00.
